Dear Distinguished Colleague:

As a Member of the German Bundestag and Chairman of the Steering Committee for the Parliamentary Intelligence-Security Forum, I invite you to attend an important national security briefing on 23-24 February, 2023 at the Parliament of Jamaica in Kingston, hosted by Speaker Marisa Dalrymple-Philibert. This forum will provide the foremost experts to address critical issues including cybersecurity, digital currencies, energy, supply chains, illicit finance, illicit trade, scarce minerals, human trafficking, quantum computing, AI, 5G, adversarial foreign investments and additional transnational crimes.

Please prioritize your schedule to attend this high level and important conference. We must build a greater understanding of these challenges impacted by transformational and evolving technologies. Our interests are joined as we address the perilous security concerns from multiple adversarial nation states and terrorists groups.

Thank you for your dedication and leadership and your consideration to attend this important dialogue with Parliamentarians from throughout the globe. Hotel accommodations will be provided for Parliamentarians attending from developing countries. Please contact lucas@pi-sf.com for inquiries or to rsvp.

Sincerely,

Hon. Andreas Schwarz

Member of the German Bundestag

Chairman of the Steering Committee of the Parliamentary Intelligence-Security Forum
