

*Houses of Parliament
Jamaica*

Speaker of the House of Representatives

Dear Distinguished Colleague,

We invite you to participate in the Parliamentary Intelligence-Security Forum hosted in collaboration with Heritage Foundation and Caribbean, Bermuda and Latin America Crime Stoppers Foundation at the Parliament of Jamaica in Kingston, Jamaica on February 23-24, 2023. We encourage you to join Parliamentarians from across the region and the world for this strategic dialogue regarding transnational organized crime, including illicit finance, illicit trade and human trafficking, maritime defense and border security, the transformational impact complex and sophisticated technologies are having on our national security, and appropriate strategies for mitigating cybersecurity threats on critical infrastructure.

As legislators, we have the prodigious responsibility of protecting our homelands. The consequences of our decisions weigh heavily on each of us, as we consider ominous economic challenges, security threats and transnational crimes. For this reason, we must enhance our global collaboration and be briefed by the most knowledgeable security, government, industry and law enforcement experts in the world on these serious issues.

We will all benefit from sharing our legislative best practices and develop a greater working knowledge to protect our countries. Thank you for your important leadership and making it your priority to join us for this unique high level meeting.

We will facilitate your arrangements with modest group rates for the forum in Kingston.

To confirm your attendance or make further enquiries, please contact Mr. Lucas Rojas at lucas@pi-sf.com.

Sincerely,

Hon. Marisa Dalrymple-Philibert, CD, MP
Speaker of the House of Representatives
