

**U.S. Senator Larry Pressler**

Dear Distinguished Colleague:

As leaders, we share a very sobering reality of unprecedented, multiple adversarial interests who seek our demise. These threats require a comprehensive understanding of emerging technologies, illicit monetary transfers and other transnational crimes, in collaboration with every country.

For the past nine years, former Congressman Robert Pittenger has developed a unique and strategic platform that has brought over 2,600 parliamentarians from 120 countries together for 23 Parliamentary Intelligence-Security Forums. I have participated in three of these fora. As a former member of the Senate Foreign Relations Committee for eighteen years, I believe these briefings are highly effective and important as we seek to build a stronger alliance with our global friends and partners.

There are six briefings being planned in 2023 in coordination with the respective host governments. The invitations for the Kingston, Feb 23-24 and London Aug 31-Sept. 1 are attached. Additional invitations are forthcoming. Your participation would have a significant impact in developing better understanding and stronger collaboration regarding critical national security issues, presented by the foremost experts in the world.

While we could forward you scores of thank you letters from MP's, attached for your review is a letter from an MP from South Sudan and additional references from other global leaders.

Thank you for your consideration to include this strategic mission in your planning/schedule. Hotel accommodations will be provided for two Parliamentarians from each developing country. Please contact [lucas@pi-sf.com](mailto:lucas@pi-sf.com) for inquiries or confirmation.
